**To ensure the smooth operation of an ETS,  
which administrative functions must be seen to?**

**Give your answer at mentimeter: head to [menti.com](https://menti.com) and enter the  
voting code 6796 0963 or follow the QR link below:**

# Administrative Functions

Determining covered installations			International reporting / emission inventory	Responding to judicial disputes				
Allocation			Monitoring & review of the ETS					
New entrants	Capacity extensions	Closures	Auction platform	Free allocation	Analysis and policy advice			
Accounting for emissions & allowances			Spending auctioning revenues			Stakeholder engagement		
Compliance oversight & enforcement			Carbon market oversight			Providing information		
Accreditation of verifiers			Offset project certification / mgmt			Public	Markets	Covered entities

# Building on existing administrative infrastructures
